DOUBLE ACTION PISTON PUMPS

Series 1600-10
Cutaway view

Easy action piston travels only 2 inches and delivers about 23 gallons at 100 "push-pulls". HOUSING of heavy die cast aluminum — CYLINDER of aluminum—both Housing and Cylinder are anodized to prevent corrosion. PISTON CUP of "Hy-Car", impervious to petroleum products—PACKING of molded graphite—INLET and DISCHARGE VALVES are die cast with cadmium plated steel springs. BASE is cast iron with 1½ inch and 2 inch male threads—1 inch suction pipe. Fine mesh brass SCREEN installed in suction side of pump, keeps ice and scale from entering pump unit.

BARREL PUMPS

MODEL 1611-10

MODEL 1612-10

NOTE: All complete barrel pumps may be purchased less suction pipe or with length of suction pipe to suit the customers requirement as specified on the order.

- 1600-10** Pump with handle, only with cast iron base having male threads to fit both 1½" and 2" openings. Approx. Ht. 19".
- 1610-10** Pump complete, includes cast iron base with male threads to fit both 1½" and 2" openings, 2 piece suction pipe approximately 31" long, and shut-off nozzle. Approx. Ht. 24" pump—53½" with suction pipe.
- 1611-10** Pump complete, includes cast iron base with male threads to fit both 1½" and 2" opening, 2 piece suction pipe approximately 31" long, 8' of ¾" static wire bound hose, and non-sparking nozzle. Approx. Ht. 21¾" pump—51½" with suction pipe.
- 1612-10** Pump complete, includes cast iron base with male threads to fit both 1½" and 2" openings, 2 piece suction pipe approximately 31" long, and threaded discharge spout with pail hook. Approx. Ht. 19½" pump—49¼" with suction pipe.
- 1613-10** Pump complete, includes cast iron base with male threads to fit both 1½" and 2" openings, 2 piece suction pipe approximately 31" long, foot valve, 8 gallon dial flow meter, 8' of ¾" static wire bound hose, and non-sparking nozzle. Approx. Ht. 25¼" pump—57½" with suction pipe.
- 1613-30** Same as Model 1613-10, except with 20 gallon dial meter. Approx. Ht. 26½" pump—57¾" with suction pipe.

All Pumps Painted as Illustrated or Customer's Color as Specified.

DOUBLE ACTION PISTON PUMPS

MODEL 1614-10

MODEL 1617-10

PEDESTAL PUMPS

- 1614-10 Pump complete, includes column pipe, pedestal, base, suction pipe to bottom of column, foot valve and shut-off nozzle. Approx. Ht. 24" pump—54 $\frac{3}{4}$ " with pipe column and base.
- 1615-10 Pump complete, includes column pipe, suction pipe to bottom of column, foot valve, 8' of $\frac{3}{4}$ " static wire bound hose, and non-sparking nozzle. Approx. Ht. 22" pump—70 $\frac{1}{2}$ " with pipe column.
- 1617-10 Pump complete, includes column pipe, suction pipe to bottom of column, foot valve, 8 gallon dial flow meter, 8' of $\frac{3}{4}$ " static wire bound hose, and non-sparking nozzle. Approx. Ht. 25 $\frac{1}{4}$ " pump—73 $\frac{3}{4}$ " with pipe column.
- 1617-30 Same as Model 1617-10, except with 20 gallon dial meter. Approx. Ht. 26 $\frac{1}{2}$ " pump—75" with pipe column.
- 1619-10 Pump complete, includes column pipe, pedestal base, suction pipe to bottom of column, foot valve, 8' of $\frac{3}{4}$ " static wire bound hose, and non-sparking nozzle. Approx. Ht. 22" pump—52 $\frac{1}{2}$ " with pipe column and base.
- 1621-10 Pump complete, includes column pipe, pedestal base, suction pipe to bottom of column, foot valve, 8 gallon dial flow meter, 8' of $\frac{3}{4}$ " static wire bound hose, and non-sparking nozzle. Approx. Ht. 25 $\frac{1}{2}$ " pump—55 $\frac{1}{2}$ " with pipe column and base.
- 1621-30 Same as Model 1621-10, except with 20 gallon dial meter. Approx. Ht. 26 $\frac{1}{2}$ " pump—56 $\frac{1}{2}$ " with pipe column and base.

ROTARY BARREL and SKID TANK PUMPS

MODEL 1510-5

MODEL 1511

MODEL 1512

Erie Rotary Pumps deliver, approximately 6 G.P.M. at 90 R.P.M. All rotary pumps are equipped with lock arm for handle, 1 $\frac{1}{2}$ " and 2" sliding bushing, with water-tight seal and rubber cap to keep water out of the tank. $\frac{3}{4}$ " suction and 1" discharge.

- 1500 Rotary Pump only with handle—Approx. Ht. 12".
- 1510 Rotary Barrel Pump, complete with shut-off nozzle and 2 piece suction pipe 38" long. Approx. Ht. 21" pump—57 $\frac{3}{4}$ " with suction pipe.
- 1510-5 Rotary Barrel Pump, with shut-off nozzle, and 2 piece suction pipe 42" long, return drain pan with fine screen. Approx. Ht. 18" pump—59" with suction pipe.
- 1511 Rotary Barrel & Skid Tank Pump with 7' of $\frac{5}{8}$ " static wire bound hose and, non-sparking nozzle. Includes 2 piece suction pipe 38" long. Approx. Ht. 15" pump—51 $\frac{3}{4}$ " with suction pipe.
- 1512 Rotary "All Purpose" Barrel Pump with Threaded discharge spout, with Pail Hook, includes 2 piece suction pipe 42" long. Approx. Ht. 11" pump—53 $\frac{1}{2}$ " with suction pipe.
- 1512-5 Rotary "All Purpose" Barrel Pump—With Threaded discharge spout with Pail Hook, return Drain Pan with fine screen, 2 piece suction pipe 42" long. Approx. Ht. 11" pump—53 $\frac{1}{2}$ " with suction pipe.
- 1515 Rotary Barrel & Skid Tank Pump with 7' of $\frac{5}{8}$ " static wire bound hose, non-sparking nozzle, 8 gallon dial flow meter, 2 piece $\frac{3}{4}$ " suction pipe 38" long, and foot valve. Approx. Ht. 19 $\frac{1}{2}$ " pump—58" with suction pipe.
- 1515-20 Same as Model 1515 except with 20 gallon dial meter. Approx. Ht. 20 $\frac{1}{2}$ " pump—59" with suction pipe.

NOTE: All complete barrel pumps may be purchased less suction pipe or with length of suction pipe to suit the customer's requirement as specified on the order.

NON-MEASURING BARREL and SKID-TANK PUMPS

MODEL 1108

MODEL 1011

MODEL 1010

MODEL 1010-3

FAST ACTION . . . ECONOMICAL

This is the newest addition to our line of Barrel and Skid Tank pumps for dispensing petroleum products such as gasoline, kerosene, and light oil. Delivers approximately 10 gallons per minute at 40 strokes per minute (one quart per stroke) 1" suction pipe.

- 1108** Plunger Type Barrel and Skid Tank Pump with 8' of $\frac{3}{4}$ " static wire bound hose and non-sparking nozzle, vent in base. Approx. Ht. $22\frac{1}{2}$ " pump— $52\frac{1}{4}$ " with suction pipe. Castings: Grey Iron; Cylinder: Steel Tubing; Piston Cup: Leather; Base: Threaded to fit $1\frac{1}{2}$ " and 2" openings; Handle: Steel tubing formed to give best pumping operation. Fitted with locking hasp. (Lock not furnished).

The following Non-Measuring Barrel and Skid Tank Pumps Deliver approximately one pint per stroke. All models equipped with: Suction Pipe—Comb. $1\frac{1}{2}$ " and 2" Screw Base—Seamless Steel Cylinder—Cast Iron Piston—Locking Lug—Steel Piston Ring.

- 1010** Plunger Type Barrel Pump with open spout with Pail Hook, $\frac{1}{2}$ " suction pipe. Approx. Ht. 14"—pump $46\frac{1}{2}$ " with suction pipe.
- 1010-3** Plunger Type "Utility" Pump with 1" Adjustable Suction Pipe— $\frac{3}{4}$ " Discharge Spout. Approx. Ht. $15\frac{3}{4}$ " pump— $59\frac{1}{2}$ " with suction pipe.
- 1010-5** Plunger Type Barrel Pump with open spout with Pail Hook, Flexible Metal Suction Tube with adapter for $\frac{3}{4}$ " opening. Approx. Ht. $13\frac{3}{4}$ " pump— $52\frac{1}{4}$ " with suction tube.
- 1011** Plunger Type "Economy" Barrel & Skid Tank Pump with 7' of $\frac{5}{8}$ " static wire bound hose and non-sparking nozzle, $\frac{1}{2}$ " suction pipe. Approx. Ht. $13\frac{1}{2}$ " pump—46" with suction pipe.

All Pumps Painted as Illustrated or Customer's Color as Specified.

QUART BARREL PUMPS

MODEL 1110

MODEL 1113

MODEL 1114

Ideal for use in Garages, Service Stations, Factories, Paint Stores, for transferring motor oils, alcohol, turpentine, solvents and cutting oils from 15 to 55 gallon drums. Every pump factory tested and equipped with formed cup leather seal—steel rack and pinion—lock arm for crank—steel cylinder—four tie rods.

- 1110 One Quart Barrel Pump with drain pan with fine screen— $\frac{3}{4}$ " adjustable suction pipe. Approx. Ht. $23\frac{1}{4}$ " pump— $55\frac{1}{4}$ " with suction pipe. $14\frac{1}{2}$ " clearance between Drain Pan and Nozzle.

- 1112 One Quart Barrel Pump, same as Model 1110 except less drain pan, $\frac{3}{4}$ " adjustable suction pipe. Approx. Ht. $23\frac{1}{4}$ " pump— $55\frac{1}{4}$ " with suction pipe.

- 1113 One Quart Barrel Pump with swing arm return, $\frac{3}{4}$ " adjustable suction pipe. Approx. Ht. 23" pump— $55\frac{1}{4}$ " with suction pipe.

- 1114 One Quart Barrel Pump with shut-off nozzle and drain pan with fine screen, $\frac{3}{4}$ " adjustable suction pipe. Approx. Ht. $24\frac{1}{2}$ " pump— $56\frac{3}{4}$ " with suction pipe. 13" clearance between Drain Pan and Nozzle.

- 1115 Quart Replacement Pump for Lubesters with swing arm return, less suction pipe. Complete with gaskets and bolts for mounting on tank. Approx. Ht. $19\frac{1}{2}$ ". (Illustrated on Page 6.)

- 1116 Quart Replacement Pump for Lubesters with non-drip nozzle, less suction pipe. Complete with gaskets and bolts for mounting on tank. Approx. Ht. $19\frac{1}{2}$ ".

RECTANGULAR and SQUARE TANKS . . .

DESCRIPTION

MODEL 2010

PUMP UNIT ONLY
MODEL 1116
SEE PAGE 5 FOR
DESCRIPTION

MODEL 2021

Erie Tank Units are excellent for dispensing Kerosene, Gasoline, Alcohol, Fuel Oils, Naptha and other light liquids.

Rectangular or square tanks are available in 30, 60, 65, 120, and 200 gallon capacities. Every tank is air pressure tested to eliminate troublesome leaks. Pumps are sealed for accuracy.

Erie tank features:

- 30 gal. tanks of 16 gauge sheet steel.
- 60, 65, 120 & 200 gal. tanks of 14 gauge sheet steel.
- The sides of 30 and 60 gallon tanks are embossed so that they will "nest" in batteries without bulging.
- All tanks are reinforced by inside braces.
- Fill opening with screen and cover.
- Steel gauge rod.

ERIE RECTANGULAR AND SQUARE TANKS WITH QUART PUMPS.

- 2010** 30 Gallon Rectangular Tank Unit with swing arm return drain tube — for lubricating oil. Approx. Ht. 19½" Pump—53" Pump and Tank. 16" clearance between Drain Pan and Nozzle.
- 2010-10** Same as Model 2010 with brass cylinder and special cup leather for kerosene and solvent. Approx. Ht. 19½" pump—53" pump and tank. 16" clearance between Drain Pan and Nozzle.
- 2011** 30 Gallon Rectangular Tank unit with drain pan and non-drip nozzle. Approx. Ht. 19½" pump—53" pump and tank. 16½" clearance between Drain Pan and Nozzle.
- 2012** 30 Gallon Rectangular Tank Unit with shut-off nozzle. Approx. Ht. 24½" pump—58" pump and tank. 14½" clearance between Drain Pan and Nozzle.
- 2020** 60 Gallon Rectangular Tank Unit with swing arm return. Approx. Ht. 19½" pump—59" pump and tank. 16" clearance between Drain Pan and Nozzle.
- 2020-10** Same as Model 2020 with brass cylinder and special cup leather for kerosene and solvent. Approx. Ht. 19½" pump —59" pump and tank. 16" clearance between Drain Pan and Nozzle.
- 2021** 60 Gallon Rectangular Tank Unit with drain pan and non-drip nozzle. Approx. Ht. 19½" pump—59" pump and tank. 16½" clearance between Drain Pan and Nozzle.

TANK SIZES

CAPACITY	HEIGHT	DEPTH	WIDTH
30 Gallon	32⅝"	22⅛"	10⅜"
60 Gallon	38⅜"	29⅞"	13½"
65 Gallon	32⅛"	22⅛"	22⅛"
120 Gallon	35⅜"	28⅝"	28⅝"
200 Gallon	39⅝"	41½"	28⅝⅛"
Models 2025 & 2026			
60 Gallon	46"	31½"	10"

. . . with QUART and GALLON PUMPS

- 2022 60 Gallon Rectangular Tank Unit with shut-off nozzle. Approx. Ht. 24½" pump—64" pump and tank. 14½" clearance between Drain Pan and Nozzle.
- 2025 Same as Model 2020 except tank is 10" wide. Approx. Ht. 19½" pump—66" pump and tank. 16" clearance between Drain Pan and Nozzle.
- 2026 Same as Model 2021 except tank is 10" wide. Approx. Ht. 19½" pump—66" pump and tank. 16½" clearance between Drain Pan and Nozzle.
- 2040 120 Gallon square tank unit with Swing arm return. Approx. Ht. 19½" pump—56" pump and tank. 16½" clearance between Drain Pan and Nozzle.
- 2040-10 Same as Model 2040 with brass cylinder and special cup leather for kerosene and solvent. Approx. Ht. 19½" pump—56" pump and tank. 16½" clearance between Drain Pan and Nozzle.

ERIE RECTANGULAR AND SQUARE TANKS WITH GALLON PUMPS.

- 2220 60 Gallon Rectangular Tank Unit with shut-off nozzle and quantity stops. Approx. Ht. 37½" pump—64" pump and tank. 19" clearance between Drain Pan and Nozzle.
- 2230 65 Gallon Square Tank Unit with shut-off nozzle and quantity stops. Approx. Ht. 37½" pump—58" pump and tank. 19" clearance between Drain Pan and Nozzle.
- 2231 65 Gallon Square Tank Unit with hose, nozzle and quantity stops. Approx. Ht. 35½" pump—56" pump and tank.
- 2240 120 Gallon Square Tank unit with shut-off nozzle and quantity stops. Approx. Ht. 37½" pump—61" pump and tank. 19" clearance between Drain Pan and Nozzle.
- 2241 120 Gallon Square Tank Unit with hose, nozzle and quantity stops. Approx. Ht. 35½" pump—59" pump and tank.
- 2250 200 Gallon Rectangular Tank Unit with shut-off nozzle and quantity stops. Approx. Ht. 37½" pump—66" pump and tank. 19" clearance between Drain Pan and Nozzle.
- 2251 200 Gallon Rectangular Tank Unit with hose, nozzle and quantity stops. Approx. Ht. 35½" pump—64" pump and tank.

All Pumps Painted as Illustrated or Customer's Color as Specified

Mobile Tank and Pump Units for Handling Petroleum Products and other Liquids equipped with either gallon or rotary pumps.

ERIE PORTABLE RECTANGULAR TANKS WITH GALLON PUMPS

- 2431** 60 Gallon Portable Rectangular Tank Unit with hose, nozzle, quantity stops, and steel wheels. Approx. Ht. $23\frac{1}{2}$ " from top of tank—47" pump and tank—57" pump, tank and truck.
- 2431-5** 60 Gallon Portable Rectangular Tank Unit with hose, nozzle, quantity stops, and rubber tired wheels. Approx. Ht. $23\frac{1}{2}$ " from top of tank—47" pump and tank—57" pump, tank and truck.
- 2441** 120 Gallon Portable Square Tank Unit with hose, nozzle, quantity stops, and steel wheels. Approx. Ht. $23\frac{1}{2}$ " from top of tank—59" pump and tank—68" pump, tank and truck.
- 2441-5** 120 Gallon Portable Square Tank Unit with hose, nozzle, quantity stops and rubber tired wheels. Approx. Ht. $23\frac{1}{2}$ " from top of tank—59" pump and tank—68" pump, tank and truck.

For Description of Gallon Replacement Pumps for above units see page 9.

ERIE PORTABLE RECTANGULAR TANKS WITH ROTARY PUMPS

- 2433** 60 Gallon Portable Rectangular Tank Unit with hose, nozzle, and steel wheels. Approx. Ht. $21\frac{3}{4}$ " from top of tank—45" pump and tank—54" pump, tank and truck.
- 2433-5** 60 Gallon Portable Rectangular Tank Unit with hose, nozzle and rubber tired wheels. Approx. Ht. $21\frac{3}{4}$ " from top of tank—45" pump and tank—54" pump, tank and truck.
- 2443** 120 Gallon Portable Square Tank Unit with hose, nozzle and steel wheels. Approx. Ht. $21\frac{3}{4}$ " from top of tank—58" pump and tank—67" pump, tank and truck.
- 2443-5** 120 Gallon Portable Square Tank Unit with hose, nozzle and rubber tired wheels. Approx. Ht. $21\frac{3}{4}$ " from top of tank—58" pump and tank—67" pump, tank and truck.

For Description of Rotary Replacement Pumps for above units see page 3.

120 Gallon	$35\frac{3}{8}$ "	$28\frac{5}{8}$ "	$28\frac{5}{8}$ "

GALLON PEDESTAL-BARREL and SKID TANK PUMPS

MODEL 1311

MODEL 1316

MODEL 1314

MODEL 1323

MODEL 1310

Erie one gallon pumps are suitable for dispensing gasoline, kerosene, and other light petroleum products from drums, skid tanks and underground tanks. Specifications: Castings are grey iron. Cylinder is steel, copper flashed. Single Poppet foot valve—steel suction pipe—steel rack and pinion—lock arm for handle. Pumps are sealed to measure accurately.

PEDESTAL PUMPS

- 1311 Pump with 8' of $\frac{3}{4}$ " static wire bound hose, non-sparking nozzle, quantity stops, 48" column pipe less base, 1" x 72" suction pipe. Approx. Ht. $30\frac{1}{4}$ " pump—78" pump and column.
- 1313 Pump—Same as Model 1311 except less quantity stops. Approx. Ht. $30\frac{1}{4}$ " pump—78" pump and column.
- 1314 Pump with quantity stops, shut-off nozzle, column pipe with cast iron base, 1" suction pipe to bottom of column. Approx. Ht. $27\frac{3}{4}$ " pump—52" pump and column.
- 1315 Pump with 8' of $\frac{3}{4}$ " static wire bound hose, non-sparking nozzle, quantity stops and cast iron base. Approx. Ht. $30\frac{1}{4}$ " pump—55" pump and column.
- 1317 Pump—Same as Model 1315 except less quantity stops. Approx. Ht. $30\frac{1}{4}$ " pump—55 $\frac{1}{2}$ " pump and column.

BARREL PUMPS

- 1316 Pump with $1\frac{1}{2}$ " and 2" threaded base, shut-off nozzle, quantity stops and 1" x $30\frac{1}{2}$ " suction pipe. Approx. Ht. $30\frac{1}{2}$ " pump—62" pump and suction pipe.
- 1318 Pump—Same as Model 1316 except less quantity stops. Approx. Ht. $30\frac{1}{2}$ " pump—62" pump and suction pipe.
- 1319 Pump with $1\frac{1}{2}$ " and 2" threaded base, 8' of $\frac{3}{4}$ " static wire bound hose, non-sparking nozzle, quantity stops and 1" x $30\frac{1}{2}$ " suction pipe. Approx. Ht. $28\frac{1}{2}$ " pump—60" pump and suction pipe.
- 1321 Pump—Same as Model 1319 except less quantity stops. Approx. Ht. $28\frac{1}{2}$ " pump—60" pump and suction pipe.
- 1323 Pump with 2" threaded base, 8' of $\frac{3}{4}$ " static wire bound hose, non-sparking nozzle, 1" x $30\frac{1}{2}$ " suction pipe. Approx. Ht. $28\frac{1}{2}$ " pump—60" pump and suction pipe.

CONVERSION AND REPLACEMENT PUMPS

- 1308 Conversion Pump for converting one quart Lubesters to one gallon kerosene units. Complete with shut-off nozzle and $\frac{3}{4}$ " adjustable suction pipe, gaskets and bolts, but less quantity stops. Approx. Ht. $29\frac{1}{4}$ " pump—67 $\frac{3}{4}$ " pump and suction pipe.
- 1310 Conversion Pump. Same as Model 1308 except with quantity stops. Approx. Ht. $29\frac{1}{4}$ " pump—67 $\frac{3}{4}$ " pump and suction pipe.
- 1324 Replacement Pump. Submerged cylinder type for 60 gallon tanks. Complete with shut-off nozzle, less suction pipe, but with gaskets, bolts and foot valve. Approx. Ht. $37\frac{1}{2}$ ". (Illustrated on Page 7.)
- 1324-10 Replacement Pump. Submerged cylinder type, same as Model 1324, except for 65, 120 and 200 gallon tanks. Approx. Ht. $37\frac{1}{2}$ ".
- 1325 Replacement Pump. Submerged type with 8' of $\frac{3}{4}$ " static wire bound hose, non-sparking nozzle and quantity stops, less suction pipe but with gaskets, bolts and foot valves. Approx. Ht. $35\frac{1}{2}$ ".

GEAR OIL PUMPS FOR DRUMS AND BARRELS

Metered and Non-Metered

Are of the Positive Piston Crank Type. They provide easy pumping for Gear Oils and other heavy lubricants and are ideal for use in Service Stations and Garages. The following Models are designed to fit either 100 lb. or 120 lb. drums. Construction is as follows: Cast Iron Pump Body, Steel Cylinder, Rack and Pinion, Cast iron foot valve, Cup leather type piston assembly, Convenient carrying handle, $\frac{5}{8}$ " x 5'6" rubber gear oil hose, Bent tube shut-off nozzle. Standard pump fits 100 lb. drums. For pump to fit 120 lb. drums specify "Pump complete with Part No. 7554-2-00 adapter". (Illustrated) Approximate overall height of pump for 100 lb. drums 31" and for 120 lb. drums 35". Capacity approx. $\frac{1}{2}$ pint per stroke.

3010 Non-Metered Gear oil drum pump. Approx. Ht. 31".

3011 Metered Gear Oil drum pump without totalizer for lubricants up to and including SAE 90. Approx. Ht. 31".

3011-10 Metered Gear Oil drum pump with totalizer for lubricants up to and including SAE 90. Approx. Ht. 31".

3011-10 Metered Gear Oil drum pump with No. 1488-1-10 Pittsburgh Meter with Totalizer, for lubricants heavier than SAE 90. Approx. Ht. 31".

Part No. 7554-2-00 Adapter converts 100 lb. Erie gear oil pumps already in operation in the field to fit 120 lb. drums.

The following pump is built of the same type of materials as those above but is equipped with a sliding bushing so that it can be adjusted to fit barrels from 15 to 55 gallon sizes. The hose is 1" x 6' cotton covered. The pump has a capacity of approximately 1 pint per stroke.

3020 Non-Metered Gear Oil Barrel Pump. Approx. Ht. 52".

TRUCKS AND DOLLY FOR DRUMS AND BARRELS

Rugged Construction and Quality Workmanship Assure easy operation . . . For 100 pound and 120 pound Drums.

3210 Two wheel truck with platform, adjustable retaining ring. (Does not fit drums with recessed bottom). Approximate overall Height $33\frac{1}{2}$ ", wheel diameter $7\frac{7}{8}$ ".

3211 Two wheel truck with steel hooks for drum rest, adjustable retaining ring. Approximate overall Height $33\frac{1}{2}$ ", wheel diameter $7\frac{7}{8}$ ".

3220 Four caster dolly with hard fibre type wheels—easy rolling—oil resistant—adjustable frame band. Approximate overall Height $5\frac{1}{2}$ ", wheel diameter $2\frac{1}{2}$ ".

3215 (For 400-pound barrels) Three-wheel truck with clamp for locking drums securely to the truck frame. Approximate Platform Height $4\frac{3}{4}$ ", Wheel Diameter $7\frac{7}{8}$ ".

ERIE Gallon Pumps (Continued)			
1311	PEDESTAL PUMP..... With hose, nozzle and quantity stops, less base.	63	\$55.00
1313	PEDESTAL PUMP..... Same as Model 1311 except less quantity stops.	62	47.01
1314	PEDESTAL PUMP..... With shut-off nozzle, base and quantity stops.	56	55.00
1315	PEDESTAL PUMP..... With hose, nozzle, base and quantity stops.	58	61.60
1316	PUMP..... With shut-off nozzle and quantity stops.	38	38.50
1317	PEDESTAL PUMP..... Same as Model 1315 except less quantity stops.	53	57.20
1318	PUMP..... Same as Model 1316 except less quantity stops.	36	36.85
1319	PUMP..... With hose, nozzle and quantity stops.	40	45.65
1321	PUMP..... Same as Model 1319 except less quantity stops.	39	40.98
1323	PUMP..... With hose and nozzle.	38	36.42
1324	REPLACEMENT PUMP..... Submerged Type with shut-off nozzle and quantity stops. For 60 gallon tanks.	43	43.45
1325	REPLACEMENT PUMP..... Submerged type with hose and nozzle, and quantity stops.	48	51.70

ERIE Rectangular and Square Tanks with Quart Pumps

2010	30 GALLON RECTANGULAR TANK UNIT..... With swing arm return.	86	\$49.15
2010-10	30 GALLON RECTANGULAR TANK UNIT..... Same as Model 2010—For kerosene and solvent.	86	51.15
2011	30 GALLON RECTANGULAR TANK UNIT..... With drain pan.	80	49.15
2012	30 GALLON RECTANGULAR TANK UNIT..... With shut-off nozzle.	87	54.83
2020	60 GALLON RECTANGULAR TANK UNIT..... With swing arm return.	124	58.10
2020-10	60 GALLON RECTANGULAR TANK UNIT..... Same as Model 2020—For kerosene and solvent.	124	60.12
2021	60 GALLON RECTANGULAR TANK UNIT..... With drain pan.	128	58.10
2022	60 GALLON RECTANGULAR TANK UNIT..... With shut-off nozzle.	125	63.88
2025	60 GALLON RECTANGULAR TANK UNIT..... Same as Model 2020 except tank is 10" wide.	141	58.10
2026	60 GALLON RECTANGULAR TANK UNIT..... Same as Model 2021 except tank is 10" wide.	143	58.10
2040	120 GALLON SQUARE TANK UNIT..... With quart pump.	175	79.58
2040-10	120 GALLON SQUARE TANK UNIT..... Same as Model 2040 except for kerosene and solvent.	175	81.60

ERIE Rectangular and Square Tanks with Gallon Pumps

2220	60 GALLON RECTANGULAR TANK UNIT..... With shut-off nozzle and quantity stops.	140	\$80.30
2222	60 GALLON RECTANGULAR TANK UNIT..... Same as Model 2220—But with external Cylinder Pump.	145	77.38
2230	65 GALLON SQUARE TANK UNIT..... With shut-off nozzle and quantity stops.	154	80.30
2231	65 GALLON SQUARE TANK UNIT..... With hose, nozzle and quantity stops.	160	85.90
2240	120 GALLON SQUARE TANK UNIT..... With shut-off nozzle and quantity stops.	185	96.80
2241	120 GALLON SQUARE TANK UNIT..... With hose, nozzle and quantity stops.	191	103.68
2250	200 GALLON RECTANGULAR TANK UNIT..... With shut-off nozzle and quantity stops.	323	132.00
2251	200 GALLON RECTANGULAR TANK UNIT..... With hose, nozzle and quantity stops.	305	132.00

Model	Description	Shipping Wt. Lbs.	Price
ERIE Portable Rectangular Tanks with Gallon Pumps			
2431	60 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose, nozzle and quantity stops.	279	\$148.50
2431-5	60 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose, nozzle, quantity stops, and rubber tires.	270	167.75
2441	120 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose, nozzle and quantity stops.	320	171.60
2441-5	120 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose, nozzle, quantity stops and rubber tires.	335	189.75
ERIE Portable Rectangular Tanks with Rotary Pumps			
2433	60 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose and nozzle.	255	\$132.00
2433-5	60 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose, nozzle and rubber tires.	244	150.15
2443	120 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose and nozzle.	300	155.10
2443-5	120 GALLON PORTABLE RECTANGULAR TANK UNIT..... With hose, nozzle and rubber tires.	330	172.15
ERIE Non-Measuring Barrel Pumps			
1010	PLUNGER TYPE BARREL PUMP.....	10	\$11.55
1010-3	PLUNGER TYPE "UTILITY" PUMP..... With 1" Adjustable Suction Pipe— $\frac{3}{4}$ " Discharge Spout.	12	14.52
1010-5	PLUNGER TYPE BARREL PUMP..... With flexible metal suction tube.	10	12.32
1011	PLUNGER TYPE "ECONOMY" BARREL & SKID TANK PUMP..... With hose and nozzle.	13	17.88
1108	PLUNGER TYPE BARREL & SKID TANK PUMP..... (Approx. 1 qt. per stroke) with hose and nozzle.	25	23.05
ERIE Quart Barrel Pumps			
1110	BARREL PUMP..... With drain pan.	26	\$19.67
1112	BARREL PUMP..... Same as Model 1110 except less drain pan.	22	18.33
